

CALIFORNIA PROPOSITION 65 STATEMENT

This letter is to confirm that the products sold by Connection Technology Center have been evaluated against California Proposition 65.

Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986) is a Californian law that requires businesses to notify Californians about significant chemicals that cause cancer or birth defects or other reproductive harm. The law requires that no person doing business, knowingly and intentionally expose an individual to a chemical known to the state of California to cause cancer, birth defects, or reproductive toxicity without first giving a clear and reasonable warning. The Prop 65 list can be accessed at: <http://www.oehha.ca.gov/prop65>

Products sold by CTC may contain substances from California Proposition 65. Our piezo accelerometers, velocity sensors, and loop power sensors use a ceramic containing over 50% lead by volume. All sensors are hermetically sealed, and there is no significant consumer risk. However, please use this statement as a warning that CTC products may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
