

## Temperature Scaling

## Temperature Scaling Key Details

Vout at 25 °C = 750 mV ±1 °C

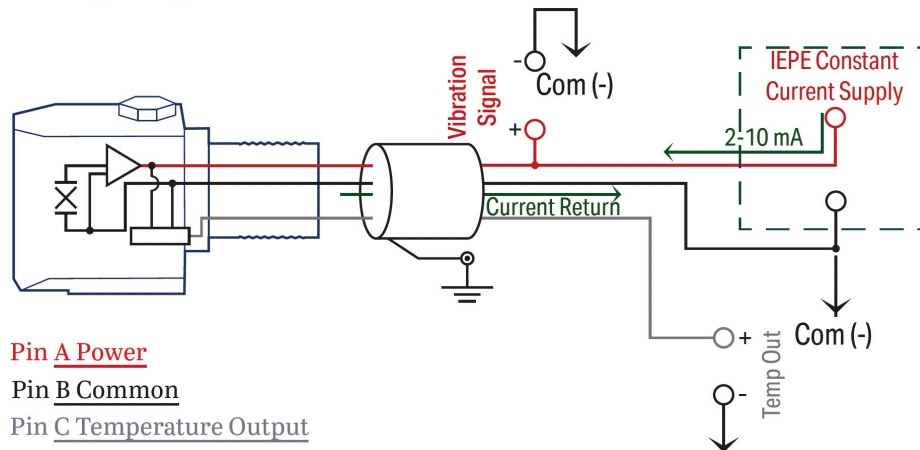

Measurement Range = -40 to 121 °C

Vout Tolerance (-40 to 0 °C) = +4 °C / -2 °C

Vout Tolerance (70 to 125 °C) = +4 °C / -2 °C

Vout Tolerance (0 to 70 °C) = ±2 °C

## Wiring Diagram

## Wiring Diagram Key Details

IEPE Open Circuit Voltage = 18 to 30 Vdc

IEPE Constant Current = 2 to 10 mA

Temp out is a voltage output referenced to COM (-)
