

## Machinery Lubrication CAT II

### ISO 18436 – MLA 2

Machinery Lubrication Level II is a Four-day course, You will learn what to look for when sampling and performing your own on-site oil tests detecting harmful particle and thermal stressors that degrade lubricants before they do serious damage.

If you find yourself wanting to bring the valuable benefits of on-site fluid testing to your workplace, Oil Analysis II will equip you with everything you need.

### Machinery Lubrication Analysis – CAT II Training Main Topics:

- Maintenance Strategies, Oil Analysis & Reliability
- Tribology Fundamentals & Lubrication Theory
- Oil Analysis Program Best Practice
- OA CAT I – Lubrication Failure & Health Monitoring
- OA CAT II – Contamination Monitoring & Control
- OA CAT III – Wear Particle Analysis
- Oil Analysis Report Interpretation.
- Oil Field Inspection & Tests

**MDI - Machinery Diagnostics Institute** Provides this training,

Accredit certification of successful completion is issued from **MDI – Australia** after the training

Accredit certification according to ISO 18436-4 is issued from **ICML – International Council for Machinery Lubrication** after passing the ICML examination
