

Electro-Mechanical Assembly Technician

Do you have interest in both electrical and mechanical assembly, with a passion for precision and craftsmanship? Our company is seeking a detail-oriented Electro-Mechanical Assembly Technician to join our team. As a vital member of our production department, you will be responsible for assembling and testing electro-mechanical components. From interpreting schematics to troubleshooting issues, your expertise will ensure the quality and functionality of our products. If you have a strong mechanical and electrical aptitude and a commitment to delivering top-notch results, we invite you to apply and become an essential part of our manufacturing process.

About the Company

Connection Technology Center (CTC) is the global leader in the design & manufacture of cutting-edge vibration analysis hardware for machine condition monitoring. As a family-owned & operated business for 30 years, we are proud to play a crucial role in preventing operational disruptions, financial losses, and safety concerns for heavy industry. From small scale manufacturing to Fortune 500 companies in Paper & Pulp, Auto & Steel, Food & Beverage, Pharmaceutical, Mining and many more, our mission is to create products that help ensure seamless operational uptime and contribute to a safer, more efficient manufacturing future.

Main Responsibilities

- Assemble electrical and mechanical components according to engineering drawings, schematics, and assembly procedures.
- Crimp or solder electrical contacts.
- Assemble finished products with mechanical fasteners and light-duty hand tools.
- Conduct functional testing of assembled systems to ensure adherence to quality standards and specifications.
- Identify and resolve issues related to assembly, wiring, and mechanical components to meet product requirements.
- Maintain accurate records of assembly processes, testing results, and any modifications made during the assembly phase.
- Work collaboratively with cross-functional teams, including engineers and quality control, to achieve production goals.
- Actively participate in continuous improvement initiatives to enhance assembly processes and increase efficiency.
- Ensure compliance with safety standards, industry regulations, and company policies during the assembly process.

Requirements

- 0 to 2 years of experience in electro-mechanical assembly.
- Accreditation from a technical school or an applicable skilled trades program preferred.

Knowledge, Skills, and Abilities

- Knowledge of electro-mechanical systems, including electrical and mechanical components, circuits, and systems.

- Strong troubleshooting skills with the ability to identify and address issues in a timely manner.
- Effective communication skills to collaborate with team members and convey technical information clearly.
- Keen attention to detail to ensure accuracy and quality in assembly processes.
- Ability to adapt to changing priorities and work in a fast-paced environment.
- Must be able to work individually as well as in a small team environment.

Work Location

This in-person position will work out of the Victor, NY facility.

Salary Range:

\$18-20 per hour based on experience

Benefits

- Health Insurance
- Dental Insurance
- Vacation Time
- Sick Leave
- Company-wide shutdown from Christmas to New Year's
- 401K plan with Employer Match
- Summer golf membership to Bristol Harbour Private Golf Course
